**Pneumatic semi automatic screen printing machines** is very economical, high in speed, reliable and very attractive machine; it is used for making wonderful unique designs on t-shirts and other plain printing substrates. This machine is best for UV Spot Coating.

Screen Printing Machine refers to equipment which helps to print original designs or logos on various fabrics, glasses, ceramics, circuit boards, leather, plastics, and metals and so on. It is economical, high speed, reliable and very attractive.

These machines are known for their high speed and heavy duty usage. Along with, screen print machines work great with silks, polyesters, jersey fabrics, wool, and acrylics.

**FEATURES :**

- Fully adjustable squeeze & flood bar have synchronized with vertical movement
- Perfectly Flat & Rigid Vacuum base
- Heavy duty & durable construction ensures Vibration free operation
- Accurate printing registration at full production speed
- Adjustable peel Off system
- Castor wheel for easy mobility

Model	1520	2030	2472
Bed Size	24x28	28x36	30x80
Print Area	15x20	20x30	24x72
E. Power	1KW	2 KW	3KW
Compressor	6Bar	6Bar	6Bar
Speed (iph)	1200	1000	350

**PNEUMATIC SCREEN PRINTING MACHINE**

**JOB APPLICATION OF PNEUMATIC SCREEN PRINTING MACHINE**

Polybag | Non-Woven Bag | Stationary | Metal | Glass | Wood | Sports Equipments  
Footwear | Automobile Parts | Stickers | Glittering | Ribbon Printing | Sheet Gumming  
Ceramic Coating | Tile Printing | Paper Printing | UV Spot Coating

**Clam Shell is one of the best Mechanical Flat Screen Printing Machine.**

SASG clam screen printing machine is one of the best Mechanical flat screen printing machine. This machine is economical, High in speed, very reliable and attractive.

Clam shell screen printing machine refers to equipment which helps to print original designs or logos on various fabrics, glasses, ceramics, leather, plastics, and metals and so on.

**This machine is most suitable for UV Spot coating.**

Clam shell screen printing machine is known for their High speed and heavy duty usage.

**FEATURES**

- Fully adjustable squeeze & flood bar have synchronized with vertical movement
- Perfectly Flat & Rigid Vacuum base
- Heavy duty & durable construction ensures Vibration free operation
- Accurate printing registration at full production speed
- Adjustable peel Off system
- Castor wheel for easy mobility

Model	1520	1824	2030	3040
Print Area	15x20	18x24	20x30	30x40
E. Power	1KW	1.5KW	2KW	3KW
Speed (iph)	1200	1200	1200	1200
Compressor	6Bar	6Bar	6Bar	6Bar

**CLAM SHELL SCREEN PRINTING MACHINE**

**JOB APPLICATION OF CLAM SHELL MACHINE**

Polybag | Non-Woven Bag | Stationary | Metal | Glass | Wood | Sports Equipments  
Footwear | Automobile Parts | Stickers | Glittering | Ribbon Printing | Sheet Gumming  
Ceramic Coating | Tile Printing | Paper Printing | UV Spot Coating

**Precision screen printing machine is semi automatic machine.** It is easy to assemble, use and maintain. Its durable construction, excellent performance, and easy installation made it so popular. This machine works with higher efficiency and easy operation.

Special design of instantaneous synchronizing disconnect device to avoid shadow or paste of printed matter.

Four-level safety emergency brake device to ensure the safety of operators.

**Microcomputer PLC control program, stable performance.**

**FEATURES**

- It adopts high precision linear guide way
- Servo drive printing
- Unique linear guide way
- Double-link lift and do smooth printing

Printing Platform size	700x1000mm	Printing station fine tuning	± 10mm
Maximum printing size	650x750mm	Source	380V/50Hz
Print Speed	500-1000PCS/H	Pressure	4-7kg/cm
Printing Accuracy	±0.01mm	Power Consumption	3.0Kw
Maximum Screen size	1000x1200mm	Mechanical Size	1500x1200x1700mm
Screen thickness	20-25mm	Mechanical Weight	600Kg
Angular Adjustment	0-45°	Print Thickness	≤40mm

**PRECISION SCREEN PRINTING MACHINE**

**JOB APPLICATION OF PRECISION MACHINE**

Single Layer Circuit Board | Fcb Carbon Oil | Electronic Cold Light Board  
Pcb Fine Circuit | Character | Flexible Circuit Board (pet) | Glass  
Various Ceramic Paper | Sticker | Plastic | Hardware
